

# X10 Khaolak Resort

## PHANG-NGA, THAILAND

To fully experience the beauty of the Khao Lak coastline, there's no better place to stay than the X10 Khaolak Resort. This luxurious hotel combines modern decor with Thai hospitality, against a backdrop where golden sand meets the clear blue waters of the Andaman Sea.

The resort features seven swimming pools, two of which have been designed especially for children. With their imaginative cove-inspired design and gentle sloping floor, the child-friendly pools are the ideal spots for little ones to splash about safely. Elsewhere on-site, X10 also has a range of kid-tailored activities and games to be enjoyed; all overseen by the hotel's friendly, experienced staff.

Throughout one's stay here, the welcoming staff are consistently on hand to help with anything a guest could want or need. From booking activities to helping guests find the best sightseeing spots, assisting with currency exchange and making restaurant reservations on their behalf, the resort's team is dedicated to ensuring everyone has the best experience possible.

The hotel's rooms and suites are designed with a modern touch and, what's more, have been equipped to the highest of standards. Each room features a private balcony and terrace, and comes with air conditioning, shower/bathtub, hair dryer, slippers, bathrobes, TV, desk, fridge, safe, tea and coffee-making facilities and wi-fi.

Thanks to the well-equipped fitness room with all its workout essentials, keeping in peak physical condition while staying at X10 is easy. The Sun Spa offers a distinctly personal experience; flick through the menu while sipping a refreshing herbal tea and choose the spa treatment and oil that's right for you.

Dining at X10 Khao Lak Resort offers visitors the chance to sample an authentic taste of both Thai and international cuisine, with the freshest, most local, ingredients joining forces with the tastiest tropical cocktails when mealtime comes. At the main restaurant, guests have the choice of either the a la carte menu or the buffet, while at the Seaside Seafood Kitchen, it is, as the name suggests, all about the seafood options.
