

Exciting News!

We are delighted to announce that "The Forum-Mountmellick" has been approved for support-funding under the EU Just Transition Fund Regenerative Tourism and Placemaking Scheme for Ireland's Midlands 2023-2026.

The support funding is earmarked for our new Tourist Accommodation premises in Market Street, The Square, Mountmellick.

This support will enable us to redevelop the historic Coach House at the rear of this historic building and provide self-contained accommodation to compliment our existing tourist accommodation in the Forum Mountmellick (Church & Manse) in Patrick Street.

We look forward to opening up this long-forgotten part of Mountmellick's town square, renowned for its beautiful Georgian facades.

This Stage-One development is just the beginning of our long-term vision, which includes a much anticipated restaurant-tea rooms and improved access to the historic Quaker Meeting House, one of the oldest in Ireland.

Once completed, this project will enhance the town and help establish Mountmellick as a must-visit destination in Ireland's Ancient East and a key gateway to its hidden Heartlands.

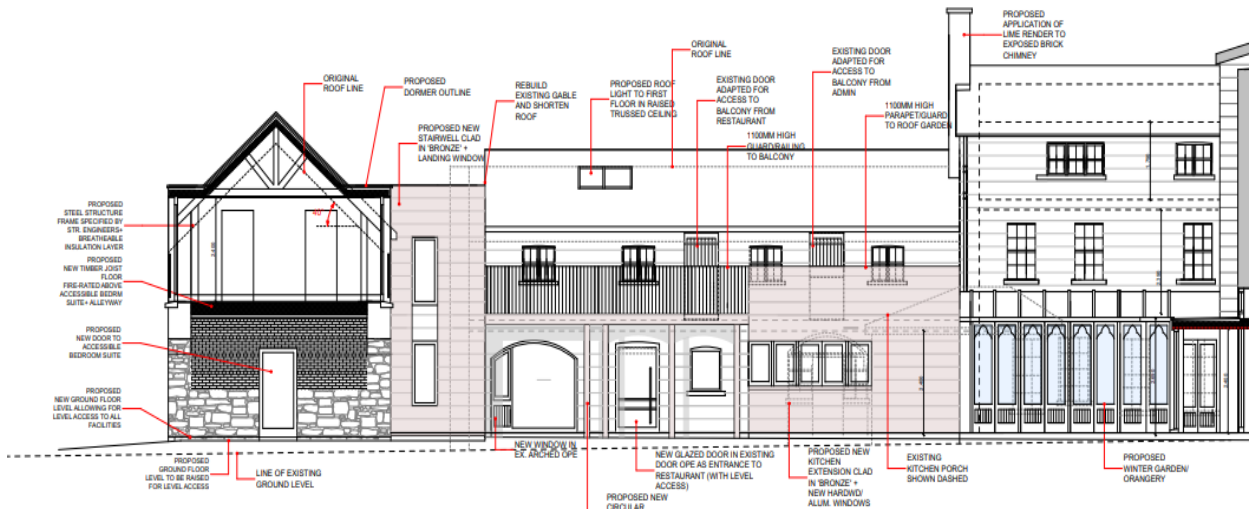

Planning permission is now in place and we are currently finalising the detailed design and the overall scheme design is shown below.

Stay tuned for updates as the project progresses!
